12/4/95

Dear Ms. Smith,

You are welcome to use the Case Open Pac. cover if you have any use for it. And good luck!

I know what you are going through in a torts case from the government. I hope you also do not have the problems I did with lawyers, mine and the government's.

In the end I prevailed and established a new legal principle, of the property owner's ownership of the air space above the property to the degree required to enjoy the consitutional right to own and enjoy property.

It was an aviation, a noise-polution case.

Best wishes,

Harold Weisberg
